Education

Cornell University <i>M.S. in Applied Economics and Management</i>	2026–2028 (Expected) <i>Ithaca, New York, USA</i>
Zhejiang University <i>Bachelor's Degree in Management Sciences: Accounting (Intelligent Financial Management Class)</i>	Sep. 2022–Jun. 2026 <i>Hangzhou, China</i>
Honors: Chu Kochen Honors Degree GPA: 4.04/4.30	

Research Interests

Behavioral and experimental economics; social preferences; cooperation; human-AI interaction.

Research Experience

Strategic De-socialization in Human–AI Interaction <i>Project Leader; Advisor: Prof. Fadong Chen</i>	May 2024–Mar. 2026 <i>Zhejiang University</i>
--	---

- Led two linked laboratory experiments ($N = 119$) comparing behavior toward human and ChatGPT counterparts across five economic games: Dictator, Trust, Ultimatum, repeated Prisoner's Dilemma, and Public Goods.
- Designed and programmed the oTree/Python experiments and collected incentivized decisions, beliefs, and satisfaction; analyzed behavior using ordered logit models, strategy classification, and structural estimation.
- Found limited average differences in low-enforcement settings but less reciprocity and more free-riding when AI cooperation was predictable, highlighting incentive-design challenges in mixed human-AI interactions.

Data-Driven Investment Strategies in Chinese Film Ticketing Platforms <i>Research Assistant; Advisor: Asst. Prof. Wenming Wang</i>	Aug. 2023–Aug. 2024 <i>Zhejiang University</i>
--	--

- Constructed a dataset of 1,789 Chinese films using a custom web scraper for ticketing-platform data, supplemented with manually collected production costs for 420 titles.
- Estimated regression models showing a positive association between ticketing-platform involvement and investment returns.

Factors Influencing International Innovation Patents <i>Research Assistant; Advisor: Asst. Prof. Yi Wu</i>	Jun. 2023–Aug. 2023 <i>Zhejiang University</i>
--	--

- Verified and standardized 46,881 company records using public sources.
- Conducted literature searches and synthesized evidence on the determinants of international patenting.

The Impact of Seed Technology Progress on Agricultural Productivity <i>Research Assistant; Advisor: Prof. Binlei Gong</i>	May 2023–Aug. 2023 <i>Zhejiang University</i>
---	---

- Developed an LLM-assisted workflow to extract 30 agronomic traits from 18,641 corn-variety descriptions.
- Contributed the structured varietal data to a research database on seed-technology progress and agricultural productivity.

Honors and Awards

Outstanding Graduate of Zhejiang University	2026
Zhejiang Provincial Government Scholarship	2023, 2024, 2025

Skills

Languages: Chinese (native), English (fluent)

Programming and Research Tools: Python, oTree, Stata, R, C, z-Tree, SQL
